BIOGRAPHY:

Philippe Crabbé is Professor Emeritus of Environmental and Natural Resources Economics at the University of Ottawa where he has been teaching in the areas of sustainable development and complex systems for over twenty years. He became the first Director of the Institute for Research on Environment and Economy at the University of Ottawa, now Institute of the Environment. He was Lead Author for the Intergovernmental Panel for Climate Change Third and Fourth Assessment Report, Working Group III, Mitigation. He has also been serving on the Advisory Committee for the Environmental Commissioner of Ontario for over seven years. He is currently consulting on environment- and water-related issues for Agriculture Canada.
