

NAME: Yuan Liu, PhD Candidate
springyilanly@hotmail.com

ROLES: Research Associate
PhD in Economics, University of Ottawa

DISCIPLINES:

KEYWORDS: System Dynamics, Soft System Modelling

RESEARCH INTERESTS:

Analyzing the impacts of sea-level rise and storm surges on the selected Canada coastal communities, especially from social economy point of view. System Dynamics Modelling aims to optimizing the adaptation capacity for each community.

BIOGRAPHY:

With a Finance and Accounting background (Central University of Finance and Economics in Beijing, China), I came to Canada in 2004 for pursuing my Master degree in Economics. Then I got one year working experience at a commercial bank. Now, I'm a fourth year PhD student at University of Ottawa.
